

GENESIS®

Overview

Genesis is a wholly-owned subsidiary of General Reinsurance Corporation, a member of the Berkshire Hathaway Family of Companies. Genesis can provide comprehensive insurance and reinsurance alternatives to individual public entities, purchasing groups, pools, or trusts. A variety of risk transfer vehicles allow Genesis to meet the needs of entities that are serious about risk management and have the desire and ability to retain risk. Genesis Insurance Company and General Reinsurance Corporation are rated **A++** by A.M Best and **AA+** by Standard & Poor's, thus providing superior financial stability in an ever-changing insurance and reinsurance marketplace.

Genesis' commitment to public entities has long been the cornerstone of our participation in the self-insured marketplace. Our company is devoted to understanding and responding to the unique needs of governmental entities. Our insurance products are tailored to public entity and educational exposures, and our reinsurance expertise allows us to respond to pools' unique structures and coverage requirements.

Issuing a policy or reinsurance contract is only a part of the risk transfer process. The response of Genesis' Claim Department is a critical second component of risk transfer, and may be the most important component when an entity or pool has a claim. Our claim professionals have responded to public entity claims in nearly all jurisdictions, and are well-versed in the complexities that surround governmental risk.

Comprehensive insurance and reinsurance programs, unsurpassed stability and financial strength, and claim expertise—these are the cornerstones of the Genesis promise. They allow your individual entity to focus on managing risk, or your governmental pool to serve its membership, knowing that the strength of the Genesis promise is behind you.

Contact a Genesis professional to discuss a solution to your risk transfer needs.
